

SERVING THE INDUSTRIAL

LABEL SECTOR

- Combination digital and flexo printing in up to 12 colours including CMYK, under white, over white and 6 SPOT colours
- Print on a range of substrates including those with unique strength and adhesive qualities
- Cost effectively handle multiple short print runs with variable data and in-line finishing such as a site-specific hazard and warning labels
- Vibrant inks are ideal for applications like warning symbols and are resistant to product contents (oil, water, etc.)
- Labels are light fast and can withstand harsh environments

LABEL SAMPLE STATISTICS

Application: Industrial labels

Substrate: PP-Metallic Silver

Ink per image (g): 0.1016
