

SERVING THE FOOD & BEVERAGE LABEL SECTOR

- Combination digital and flexo printing in up to 12 colours including CMYK, under white, over white and 6 spot colours
- Each element is produced by the most efficient process. Achieving the optimum product cost for your target run length
- Clean, vibrant colours produced with inks that are extremely light fast, chemical, moisture and scratch resistant even in low temperatures
- Print on a range of substrates and add functional barriers such as laminates
- Produce a wide range of packaging items - labels, cartons, sleeves and flexibles
- Effectively handle a number of short print runs with variable data and in-line finishing
- Easily accommodate many product variants and promotional labels - seasonal, special offers, peel & reveal, recipe booklets and special editions
