

Creative Imaging
Technology

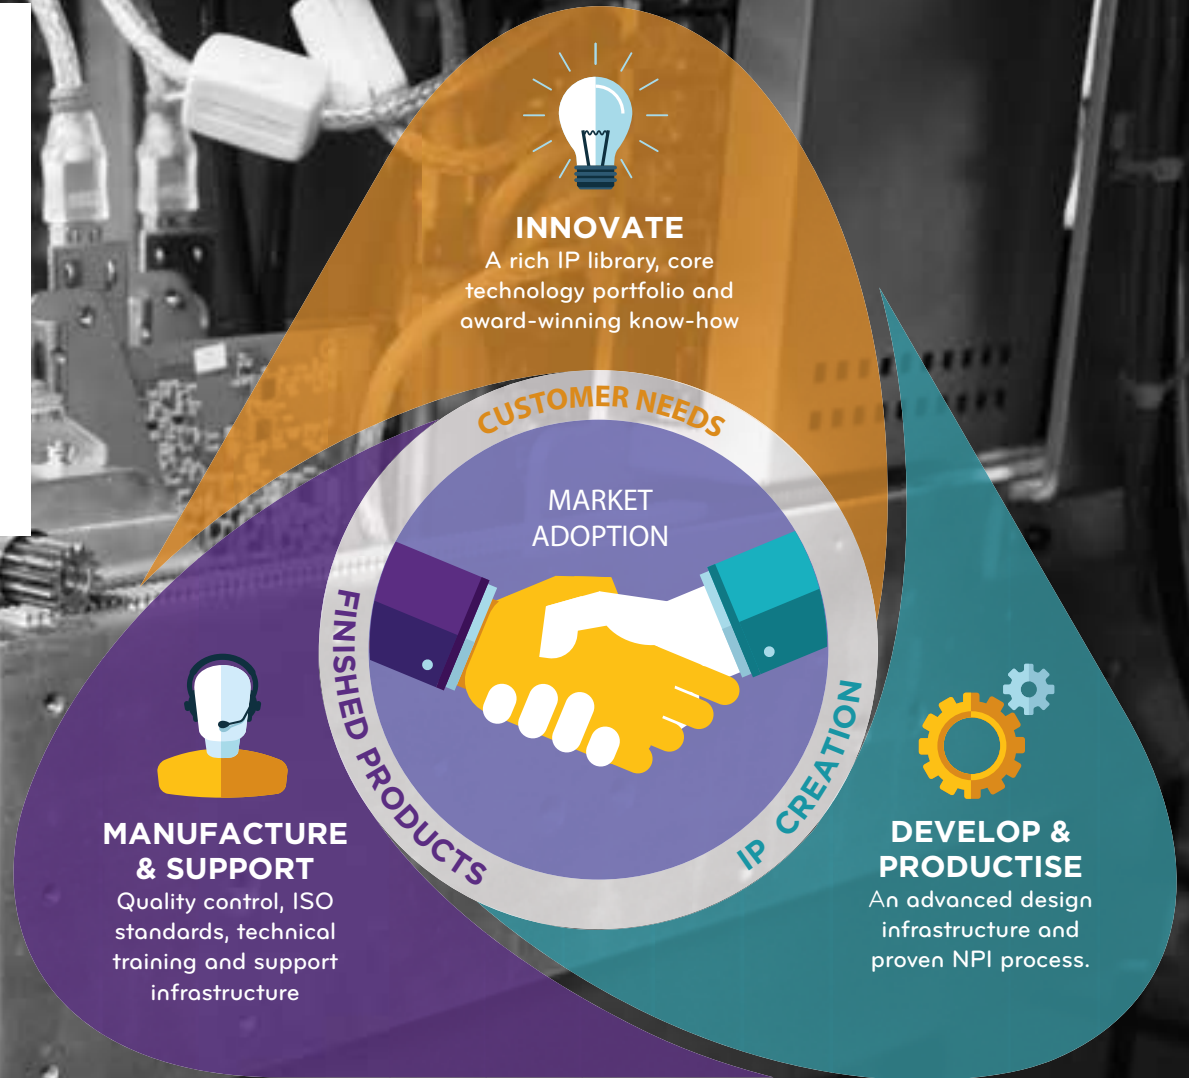

EXPANDING THE APPLICATION

OF DIGITAL IMAGING TECHNOLOGY

REPUTATION

Established in 1947 FFEI has an impressive reputation for developing innovative and award winning solutions – from concept to delivery. FFEI works closely with customers to ensure their market knowledge is transformed into the industrial printing system they need to meet their bespoke requirements.

INNOVATE

A CULTURE OF INNOVATION

We have a history of innovation and are proud to have won many coveted industry awards for our products and design. Our success reflects a culture to innovate, with a keen focus on customer needs all underpinned with highly capable and committed employees.

TAKE ADVANTAGE OF AN EXTENSIVE CORE TECHNOLOGY PORTFOLIO

FFEI has an impressive reputation for developing sophisticated solutions from concept to delivery. Whether the challenge is to create technology to ensure Ground-Truth Colour Standardisation for Pathology AI; accurately jet billions of ink droplets a second on to exotic materials; or even create ultra high resolution micro scanning mechanisms to research human tissue cells - FFEI has the capability.

65+ YEARS INVESTED IN INDUSTRIAL DIGITAL IMAGING

With a history in creative imaging technologies that dates back to 1947, FFEI has become one of the market leaders in the world of industrial digital imaging.

We are known for our highly innovative and advanced product solutions, which have attracted joint ventures with some of the world's leading organisations in this sector.

DEVELOP & PRODUCTISE

BRING US THE CONCEPT AND WE WILL DELIVER THE PRODUCT

FFEI's business model is to engage with leaders in the industrial printing field that wish to bring new products to market. Partnering with FFEI gives you the ability to inject your market knowledge into innovative new products that FFEI design and manufacture for you.

A PROVEN NEW PRODUCT INTRODUCTION PROCESS

FFEI operates to formal product development processes, which provide both transparency and dependability to achieve product quality, cost and performance targets.

OUR TECHNOLOGY POWERS MANY MARKET LEADING PRODUCTS

Known for our highly innovative and advanced product solutions, which have attracted joint ventures with some of the world's leading organisations in this sector. While our brand is not always obvious, our technology is used within many successful market-leading products.

MANUFACTURE & SUPPORT

EQUIPPED TO ENSURE THE HIGHEST QUALITY OUTPUT

Our manufacturing facility in Hemel Hempstead, UK, houses environmentally controlled technology suites for each product area and is operated by highly qualified and experienced staff. This ensures all products reach the high quality standards that FFEI's customers have grown to expect.

OUR TALENTED WORKFORCE ENSURES SUCCESS

FFEI is a fast moving environment and the perfect place for talent to grow. We employ bright, responsible, committed people whose ambition and vision matches our own.

We offer a professional, friendly environment where ideas, innovation and improvement are encouraged.

MANUFACTURING QUALITY AND CUSTOMER SATISFACTION DRIVES OUR BUSINESS FORWARD

Product quality is the cornerstone of everything we do. FFEI solutions are designed and manufactured to standards that guarantee exceptional levels of 'out of the box' quality. No matter where our products go, or the journey they take, we strive to delight customers with our 'plugin and go' approach.

CORPORATE SYSTEMS

FFBI

DESIGN SYSTEMS

Mechanical CAD/CAE: Siemens NX and Solidworks, inc Cable/packaging

Electronic CAD/CAE: Mentor Graphics, Design-View, Design-Sim, Hyperlynx, Expedition PCB; Xilinx Vivado; Lattice Diamond

Optical Modelling: Zemax

Mathematical Modelling Software: Matlab

Software: Visual Studio, Testlink, Eclipse

Engineering Data Management: AGILE, Sharepoint, Devtrak

MANUFACTURE & INFRASTRUCTURE SYSTEMS

VMWare Virtualised Server Infrastructure

Veeam Backup for Virtualised Infrastructure

IBM iSeries running SAP

SAP and VMWare

Microsoft Office 365

Diversely routed internet connection

24x7 monitoring on all critical IT infrastructure

Secure off-site storage for backup media

Internal Gigabit network

QUALITY SYSTEMS

ISO9001 Quality Management

ISO14001 Environmental Management

ISO13485 Medical Device Quality management
